

UNOS toll-free patient services line

UNOS is the United Network for Organ Sharing, an organization established by Congress to oversee the organ wait list and matching nationally. UNOS has requested that transplant centers inform their patients of a new service.

The United Network for Organ Sharing provides a toll-free patient services line to help transplant candidates, recipients, and family members understand organ allocation practices and transplantation data. You may also call this number to discuss a problem you may be experiencing with your transplant center or the transplantation system in general.

The toll-free patient services line number is 1-888-894-6361.

Additional information about transplant can be found at www.unos.org, and www.averamckennantransplant.org.
